Las Vegas Photo Workshop
June 28 to July 1, 2018

**The average human lives 30,000 days…
how will you spend yours?**

Pathogen iNk and Antoniel Pavliš Photography are teaming up to help take your art to the next level. There is always something to learn in the world of photography, so no matter your level of experience, we're here to inspire you, push you and put you in a position to hone your craft. Our professional photographer instructors are low-key, experienced and focused on your art.

Troy is a former educator with over 10 years of experience traveling the world creating beautiful fine art photographs. Antoniel has more than 10 years experience as a wedding and portrait photographer creating amazing images throughout Europe.

Our workshop is limited in size so that we can give you one-on-one attention to help in your professional development. If you have special requests, start making your list so that we can start checking off your boxes! We want you to come away from this workshop feeling refreshed and inspired. We also want you to have fun!

Photography is a competitive profession and we've successfully made it our own for a long time. We want you to stand apart from your competition, be at the top of your market and maintain your own style. We'll take you behind the scenes to show you how to promote your business, build your client base and forge your way into the world of Photoshop. We want your portfolio to shine and earn you the money you've worked hard to earn.

We have booked a beautiful 5 bedroom home in Southwest Las Vegas to serve as our home base for this workshop. The home has great open space, natural lighting and a pool/spa to relax in during free time. We are excited to spend time together getting to know you and share our passion for photography with you.

$600 per person based on double occupancy (shared room & bed)

$750 for single supplement (private room)

Included: 3 night accommodations, 6 meals, nightly cocktails/wine, transportation to and from the airport & photo shoots, 5 photo shoots with models & 4 instructional classes/editing demos
